4. SCOPE OF WORK & GUIDELINES

Election observation is a key component of the work TM undertakes to promote electoral integrity and public confidence in electoral processes. To date TM has observed major national-level elections in the Maldives, including the first multi-party Presidential Election in 2008 and again in 2013, Parliamentary Election in 2009 and 2014, and Local Council Election in 2011 and 2017.

As with all TM’s major election observation efforts, a key component of the election observation programme is undertaking a pre-election assessment to feed into the larger advocacy work TM does around elections. Therefore, in preparation for the 2018 Presidential Election, TM intends to conduct a comprehensive assessment of the pre-election political and electoral environment of the country. The assessment should include:

- An analysis of the electoral legal framework.
- An analysis of the conditions for a free, fair and credible election process and the extent to which Maldives meet these conditions.
- An analysis of the political environment within which the 2018 Presidential Election will take place and a projection of anticipated challenges.
- Anticipated areas of concern in electoral administration based on past elections and political developments.
- The status of media freedoms in the Maldives and implications for the Presidential Election.
- Anticipated issues in vote buying and campaign financing.

The Consultant shall:

- Submit a work plan with data collection and analysis, not exceeding 3 months.
- Submit a detailed methodology to conduct the pre-election assessment.
- Identify key stakeholders and provide a list of stakeholders to be interviewed.
- Arrange necessary meetings with stakeholders and conduct interviews and/or focus group discussions.
● Undertake a desk review of existing literature pertaining to elections and political and electoral environment of the Maldives.
● Produce a draft report analysing electoral legislations and pre-election political and electoral environment together with recommendations.
● Present the findings of the assessment report to TM staff.
● Facilitate a multi-stakeholder workshop to validate the findings of the report.
● Produce final report with feedback from TM and stakeholders considered.
